

In this Update...

- Have you seen ReportWriter yet?
- Testream/CS training dates
- New Help Desk Number
- New Corporate contact information

Have you seen ReportWriter yet?

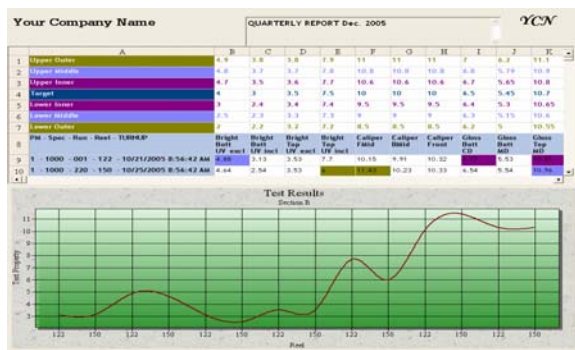

Are you one of the many customers who have already gotten a firsthand look at ReportWriter? If not, now's the time!!

Ask yourself this: Are your reports as effective as you would like? Are you tired of writing macros to get your reports just right? Would you like to add more pizzazz to your reports but just don't have the time? ReportWriter allows you to do all that and much, much more!

ReportWriter allows you to customize your report the way **YOU** want it to look! By combining charts, spreadsheets, text, pictures and/or labels, you can control every aspect of your report's appearance with a click of your mouse.

It's easy to create colorful, meaningful reports.

Simply select the icon for chart, spreadsheet, text, etc. and place it on the grid where you would want it to appear on your report. After placement is exact, select the search criteria and the display settings that are the most esthetically pleasing for your presentation. Preview each change as you go or wait until the end.

Histograms, CD profiles, monthly/quarterly/annual quality data summarizations...the possibilities are endless!

Once the report is final, you may save it's template for repeat use and/or print the report or publish it on your network or intranet: export options include MS Excel and HTML.

Ho! Ho! Ho!

What better **holiday gift** to give yourself than a powerful new reporting tool for your Testream/CS system! For only \$4,950 a concurrent connection Designer license for ReportWriter can be installed on your Testream server and *anyone in your organization* can jump right in and start creating powerful reports.

We'd love to tell you all about ReportWriter. Send us an email at sales@acquidata.com if you'd like to know and see more.... fax us a purchase order and you'll have it in time for the holidays!!

Does someone in your organization need training on Testream/CS?

Our next training session will be held in our new Garden City location! On January 25th thru the 27th we will be holding a full Testream/CS training program. (Remember: training class attendance is **free** to customers covered by a Support Services agreement). Call or email us now to hold a seat for you.

New Help Desk Number

(516) 408-3585 ext. 101

If you have any system usage or technical questions, give us a call. Standard support hours are between 8:00 am to 6:00pm EST, Monday thru Friday.

Would you like one of our *new* mouse pads with this Help Desk number on it? Call Isabella Mitchell at extension 105; she'll have it to you right away.
